

## Piece Builder™ Ditch for godaddy.com Customers

Login to your godaddy.com account, and go to Domain Manager.

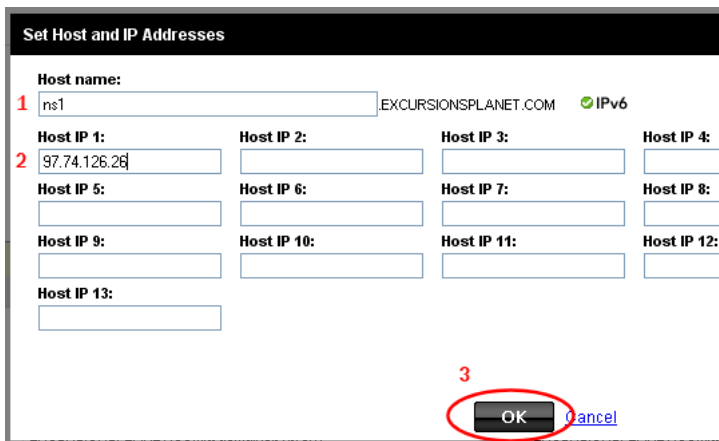

Select the domain name you want to edit.

Near the bottom of the page, select "add" to add nameservers.

1. The first host entry is "ns1" as shown below.
2. The host IP is "97.74.126.26".
3. Select "OK".

It might take a minute for your nameserver entry to appear in the Host Summary. You will likely need to refresh the page to see the update.

Host Summary (add)
