

Piece Builder™ Transport for godaddy.com Customers

Login to your godaddy.com account, and go to Domain Manager.

1. Check the box for the domain you want to transfer to InSBec.
2. Select "Account Change".

3. Use the InSBec account number, or login name provided to you by email. This information will be provided to you after making your Transport purchase.
4. Select "Do not change"
5. For New registrant's email address enter: support@insbec.com
6. For Confirm email address enter: support@insbec.com

Initiate Account Change Step 1 of 4

New registrant's Customer # or login name: **New registrant's email address: ***

Domain's contact information: Enter new details **Confirm email address: ***

Use details from specified customer account Keep the current nameservers for these domains

Do not change

On the next screen you will need read the terms and check the boxes to move the domain name out of your account. Read more on this here: <http://help.godaddy.com/article/822>

If you ever want to move your domain back into your account, provide the request to InSBec in writing. We will confirm your request using your Piece Builder™ account contact information for verification.
